Where A Micron Matters

SINCE 2005

ISO 9001:2015 CERTIFIED

Leading Manufacturer and Supplier of Precision-Engineered Auto Parts, All types of Shafts, Gear Box Components and Industrial Machinery Parts.

About Us

Jay Ambe Engineers is a leading manufacturer and supplier of a comprehensive range of Auto parts, Gear box parts, Induction motor shafts, Earth moving parts, Agriculture parts, Forging and Casting Parts. This range of parts are made using premium grade raw material and innovative technique in compliance with the industry laid norms and standards.

The facility is installed with highly modern machines and latest technology. Our motto is maximum satisfaction to our clients by delivering the order consignment within the committed time frame.

Business Type

Manufacturer and
Supplier

Established

2005

Team Size

85+ Staff Members

Infrastructure

20,000 Sq.Ft.

Machine Capability

Our 20,000 sq.ft. facility is equipped with advanced machines representing the latest in manufacturing technology.

10 CNC Machines

Computer numerical control precision

CUTTING & PREPARATION

- Circular Machine: 2
- Lathe Machine: 11
- Drill Machine: 4

3 VMC Machines

High-precision turning operations

PRECISION MACHINING

- Bandsaw: 3
- Auto Keyway Milling: 2
- Grinding Machine: 4

3 Auto Keyway

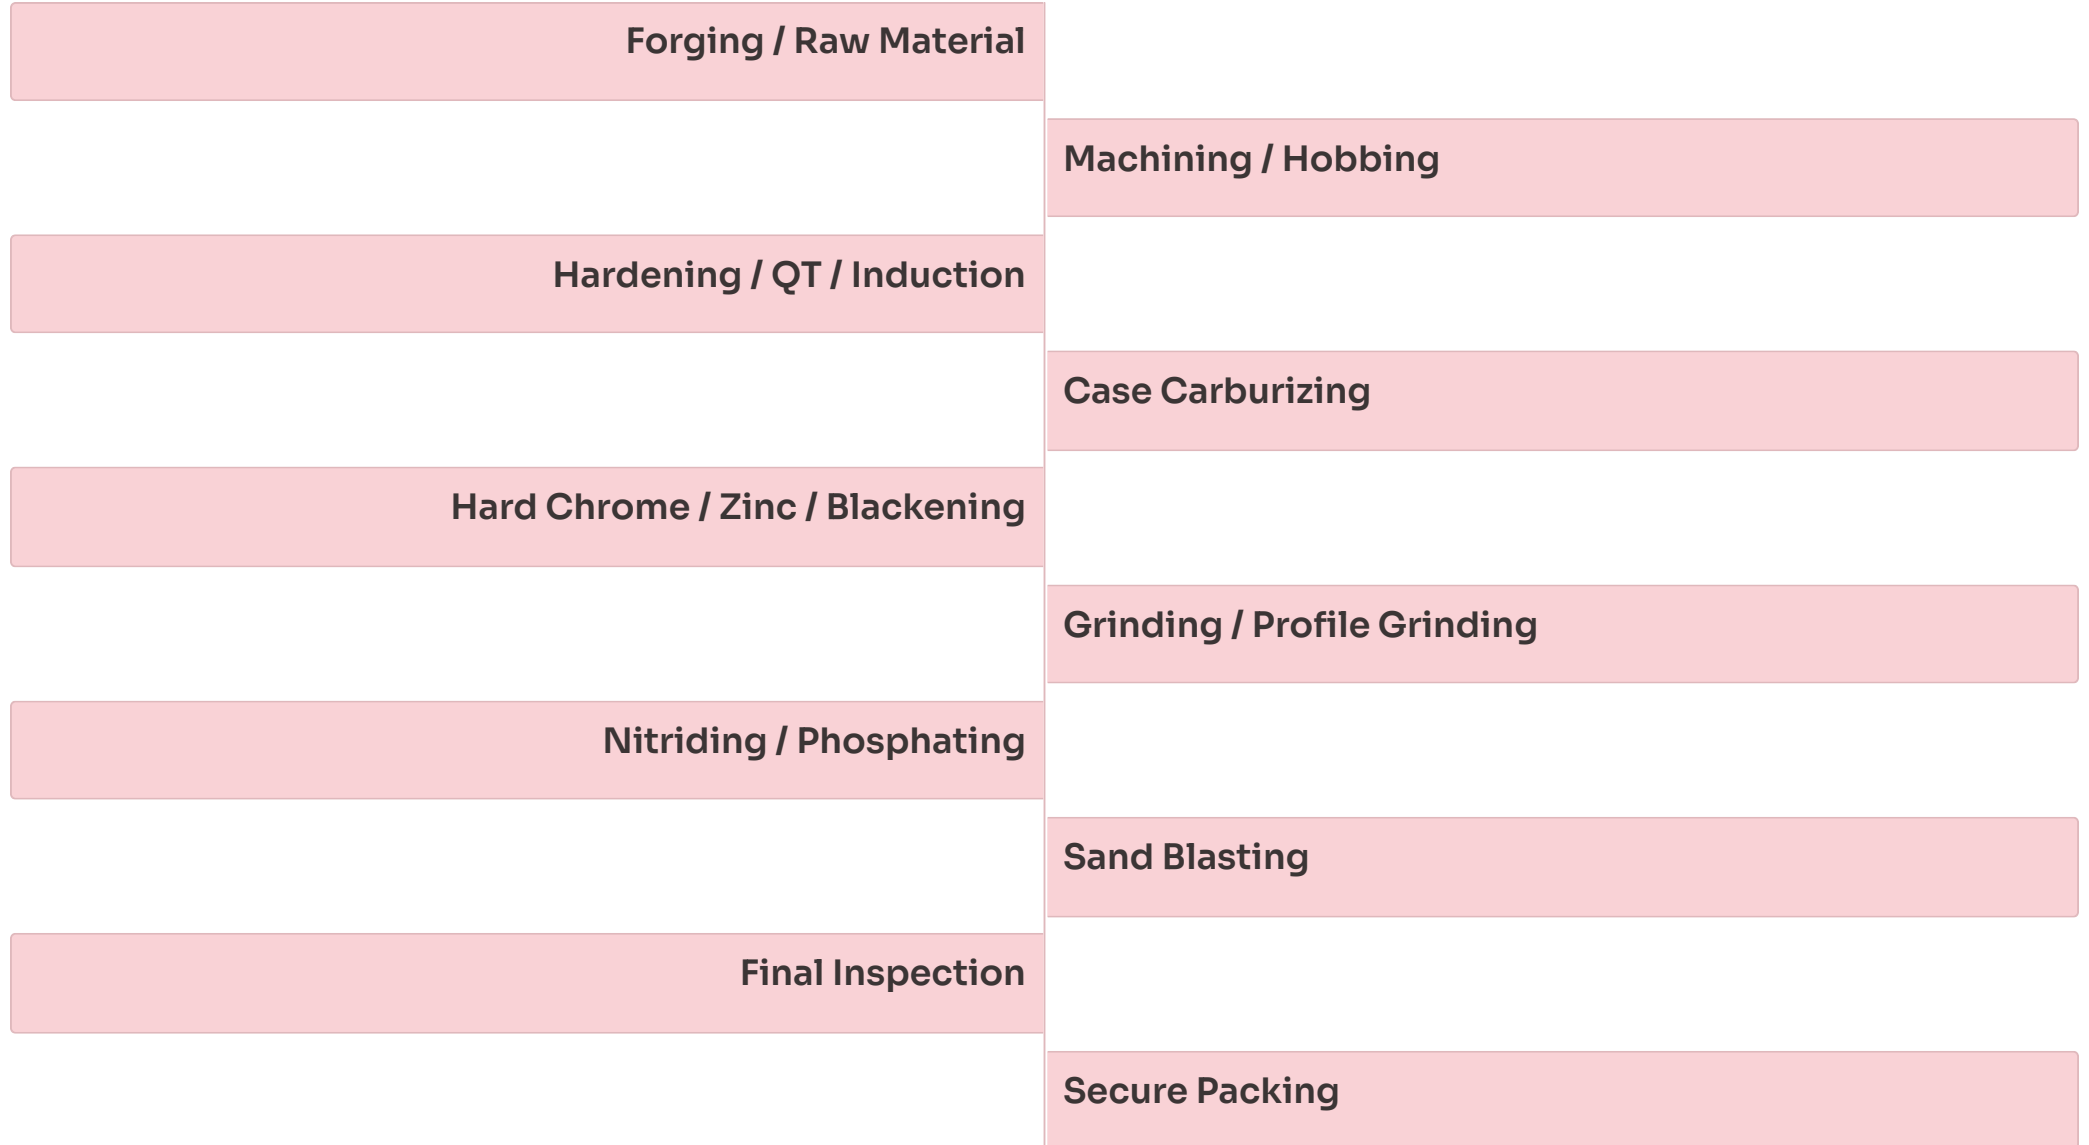

Automated Precision

GROUP COMPANY

- Broaching
- Gear Hobbing
- Gear Shaper
- Profile Grinding

Our Process Cycle

From raw material to finished product, our comprehensive 10-step process ensures precision and quality at every stage.

Each step is carefully monitored and executed by our skilled team using state-of-the-art equipment to ensure compliance with international quality standards.

Our Products: Shafts

We are a leading manufacturer of a wide range of shafts made using best quality raw materials. Our gear box shafts are highly durable and functional, engineered to exact specifications.

Transmission Shafts

- Gear Box Shaft
- Input Shaft
- Output Shaft
- Axle Shaft

Motor Shafts

- Induction Motor Shaft
- High Speed Shaft
- Slow Speed Shaft
- Gear Shaft

Specialized Shafts

- Solid Shaft
- Hollow Shaft
- Spline Shaft
- Worm Shaft

Our Products: Gears & Components

Gear Products

We offer Blank Gear Parts made utilizing high grade raw material and innovative technology in strict compliance with international quality norms. Known for precision engineering, corrosion resistance, durability and high strength.

- Spur Gear
- Helical Gear
- Bevel Gear
- Worm Wheel
- Sun Pinion
- Rack Pinion
- Forged Gear Blank

Textile Parts

- Feed Roller
- Nip Roller
- Apron Roller
- Coupline

Earthmoving Parts

- Pin
- Bush
- Borewell Shaft
- Gear

QUALITY CONTROL

QC Capability

Our commitment to quality is upheld by our state-of-the-art QC equipment and testing instruments, ensuring every product meets the highest standards:

Our Competitive Advantages

What Sets Us Apart

Excellence in quality, precision, and customer satisfaction

- Excellence Quality Work
- In Time Delivery
- Manage Stock
- Quality Measures
- Customized Packaging

Our Core Values

Ethics

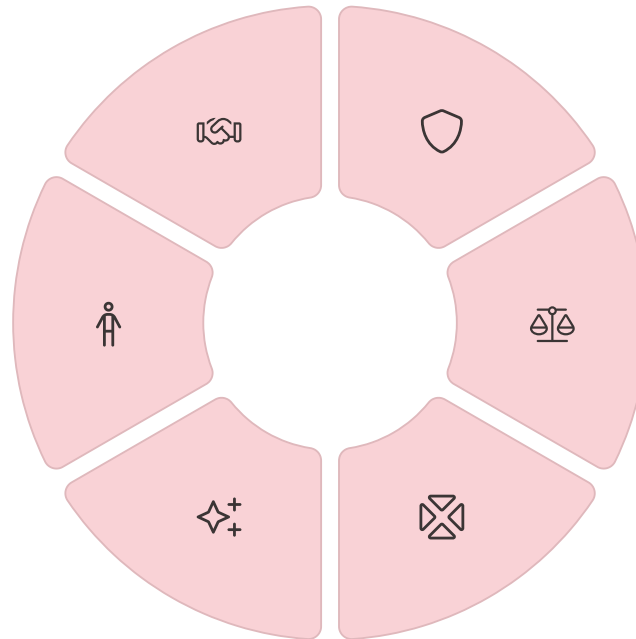

Integrity in every transaction

Team Work

Collaboration for success

Innovation

Pioneering new solutions

Trust

Building lasting relationships

Responsibility

Accountable to our commitments

Goals

Driven by clear objectives

Why Choose Us?

Trust On Quality

Premium grade materials and rigorous quality control

Timely Delivery

Committed time frames, every time

Focus On Innovation

Cutting-edge techniques and technology

Trust In Team Power

85+ skilled professionals dedicated to excellence

Growth Footprint

Expanding capabilities since 2005

Focus On Development

Continuous improvement and advancement

Excellence Service

Maximum customer satisfaction

Adopt New Technology

Latest machinery and modern techniques
